

From engineering design, to support during installation, or integrity & vibration assessments during operations, we strive to be your preferred partner to resolve tough and complex engineering challenges.

Our services include:

- **FEED, Basic, & Detail Engineering**
Design of Facilities and Pipelines
- **Project Management**
- **Mechanical Engineering**
- **Process Engineering**
- **Civil and Structural Engineering**
- **Electrical Engineering**
- **Design of Skid Mounted Equipment**
- **3D Modeling, Design and Drafting**
- **HAZOP, What If & SIL Studies**
- **Stress Engineering**
- **Integrity Engineering**
- **Field Measurement Services**
- **Acoustics and Vibration**
- **Fluid Mechanics**
- **Combustion & Heat Transfer**
- **Rotordynamics**
- **Geohazard**
- **Forensic Engineering**
- **Regulatory Compliance**
